

Free and Lower Cost LMS's

Learning management systems can range in price from free to hundreds of thousands of dollars depending on feature sets, size of the learner community, and vendor. Here are some examples for smaller to medium enterprises or institutions looking for cost-effective solutions. Quite a few of these, especially the free and open source solutions have been designed primarily for education and usually do not support classroom training but they have found applications in business as well.

Open Source

- Moodle <http://www.moodle.org>.
- Docebo <http://www.docebolms.org/doceboCms/>.
- Atutor <http://www.atutor.ca>.
- Sakai <http://www.sakaiproject.org/>.
- 48 other open source LMS's listed at <http://www.trimeritus.com/vendors.pdf>

Free –

- Pearson OpenClass <http://www.joinopenclass.com/>.
- Iversity <http://www.iversity.org/>.
- Schoology <https://www.schoology.com/>.

Lower cost
